MW13

BATTLE AT THE BEACH

Before you cruise out to Darlington for Drag Night, swing by the Myrtle Beach Mall on Thursday morning to check out the

dyno shootout put on by 5.0 Mustang & Super Fords magazine and sponsored by official Mustang Week dyno provider Pro Dyno (www.pro-dyno.net).

Leading up to the best week of the year, the crew at 5.0&SF handpicks an elite group of Mustang Week attendees to square off on Pro Dyno's portable Dynojet to determine which car puts down the most rear-wheel horsepower. No matter who wins, the competition is destined for coverage in the pages of the magazine.

The rollers will start spinning at 9 a.m., and it should be finished by the early afternoon, so you'll still have time to hit Hooters and drive out to the racetrack.

DAY 4 FRIDAY JULY 19, 2013 CAR SHOW

By Brad Worley and
the Mustang Week staff
Photos by Steve Turner

Time to clean up your ride on Friday, July 19, as the 10th Annual Mustang Week Car Show takes over Myrtle Beach Mall at the intersection of US 17 and SC 22. The 2012 show brought another sell-out crowd of 600 cars in the show and just over 7,500 spectators!

The show is open to all years of Ford Mustangs and SVT vehicles, and has quickly become one of the best all-around Mustang car shows on the East Coast. Spectators and participants will have the chance to see everything from mild to wild and classic to late-model!

Mustangs and SVTs will be judged on the overall cleanliness and quality of presentation. We look at the interior, engine compartment, body, wheels, and tires. We will not judge convertible tops or side

glass since they are optioned to be down during the judging period. Since most people drive their Mustangs to Mustang Week and carry most of the cleaning gear with them, we will not judge trunks either.

People who do win at the Mustang Week Car Show take cleaning serious and it shows. The staff understands that you are not at home with all your normal cleaning products and procedures. However, each year folks drive a long way to Mustang Week and always manage to get their cars *really* clean!

The pre-registration fee is \$30; the judged portion of the car show is by pre-register only on the Mustang Week website (www.mustangweek.com) and opened in mid-April. The car show always sells out online prior to the actual event, so register
